To Whomsoever It May Concern

Structural Stability of Garden Tower 18 and Tower 19

Nallambakkam, Uniworld City, Chennai

The structural designs and drawings of Towers 18 and 19 of Garden Buildings at Uniworld, Nallambakkam, Chennai have been proof checked. All relevant codes have been followed with all loads and load combinations for the design. The structural safety and stability checks have been made for the above buildings based on the documents submitted by the client and the designs have been found to be satisfactory and hence approved.
